The Kutumb Foundation is a not-for-profit organisation registered under Societies Registration Act XXI of 1860. Registration No. S/45761 of 2003

## INTRODUCTION

The Kutumb Foundation is a volunteer driven, not-for-profit, non-governmental enterprise working for the empowerment of disadvantaged young people in Khan Market, Nizamuddin Sunder Nursery Basti and Savda-Ghevra J.J. Resettlement Colony (on the Northwest Delhi border, 7 km. from Mundka). The Kutumb Foundation is dedicated to promoting the total development of the individual by way of building language skills, bridging developmental gaps, and addressing issues of identity; this process of exposure is accomplished through theatre and football, among other creative methods. Peer leadership and democratic decision making empowers the young people of Kutumb to take charge of their own communities.

Our story begins in 2002 when we began by using non-formal education methods with young people from the Khan Market Labour Camp. At that time we met in a park (now a parking lot). We began with the Goal of Life Football Tournament, a creative theatre festival, Hilley-ley, and an alternate education programme, Indradhanush. Since then, we have firmly rooted ourselves in the community and are branching out, while remaining the same fun organisation with a family atmosphere!

We have faced numerous challenges over the years, but have not been deterred. In 2009, the Khan Market Labour Camp was demolished due in part to the upcoming 2010 Commonwealth Games. The residents of the Camp were relocated to Savda-Ghevra J.J. Resettlement Colony. In 2011, due to requests by our participants, we were able to find a field office in Ghevra. We now run a computer and resource centre there, in partnership with the Habitat Learning Centre. Our Goal of Life programme has also expanded from an annual football tournament to twice weekly football cum life skills sessions in three locations. Indradhanush, our alternate education programme, is now 10 years old in Khan Market. In addition, we hold workshops on gender and pluralism as well as creative workshops. We also continue to hold our annual theatre event, Hilley-ley, featuring plays directed by our own young people.

**APRIL**

- The **2012 Goal of Life Tournament matches** occurred on 13, 14, 18, 19 April. The quarter-finals occurred on 20 April and the semi-finals and final matches were played on 21 April. The winning team this year was **11 Lions**. Their team manager, and Kutumb peer leader, Deepak, was very proud of his team! All of our children, in every team, celebrated the tournament; winning or losing wasn't the most important part. The tournament also focused on **gender inclusivity, conflict resolution, peer leadership** and even **SWOT analysis**. Prizes for the final teams included school bags stocked with supplies. Awards were given not only for top scorer, but also most gender sensitive team and 'Most Valuable (All Around) Player'. The tournament was an all around success and we are very grateful to all of our sponsors, volunteers, peer leaders, coaches and the participants. We are above all thankful to the **R.S. Junior Modern School** for their support.
- Our **Interfaith Leaders Youth Core** fellow, Saachi, visited the homes of our participants in the Sunder Nursery Slums and conducted a survey to map the parents' attitudes towards their daughters participating in sports. The survey was followed up by a discussion with parents and the number of female participants has since drastically improved in our Nizamuddin branch of **Goal of Life**.
- On 8 April Kutumb youth participated in the **Habitat Learning Centre's Annual Day**. They performed several dance numbers and engaged in numerous theatrical skits.

**MAY**

- This May we signed a MOA with the **India Habitat Centre-Habitat Learning Centre** to begin an **Extension Learning Centre** in Ghevra. We began the process of outfitting our Ghevra Field Office with new computers, signing up participants and searching for staff.
- As part of our **ILSA** fellow, Saachi's **Kick Off Event** we organized three workshops with 30+ **Goal of Life** and **Indradhanush** participants on the theme of **Women and Sports**. We worked on poster activities and discussed questions such as: should women play sports? Are their advantages to women playing sports? and so on. We also discussed the lives of diverse Indian sports women: Boxer Mary Kom from Manipur, Shooter Anjali Rawat, Tennis Player Sania Mirza, Track and Field star Anju Bobby George and so on. The workshops culminated with a visit from Swati, an under 19 **Indian Football Team** member and Indu, a representative from the **All India Football Federation**.

They engaged in a friendly match and interacted with our participants. The Kutumb team also had a chance to meet and strategize with **National Team Director Mr. Subhankar Mukherjee**.

- Practices for **Hilley-ley 2012** began in May. The play is conceptualized and directed by two of Kutumb's young peer leaders, Mohit and Sumit. This year we will put on a production of Shakespeare's *The Merchant of Venice*. Our Hindi version, **Saudagari** will focus on the themes of love and friendship within the context of caste and gender.

## JUNE

- This June we completed our **agenda for Indradhanush**, to be implemented in August 2012 and run through August 2013. We have established a **detailed curriculum** for our core areas of **Hindi, Math and English** as well as established new **Youth Clubs** for our senior participants focusing on **English and Hindi discussion and current events** as well as **Personality Development**. Our **Theatre and Dance** groups will also remain active and we will move into providing all around **school assistance** once a week as well. We have formalized a schedule and have been taking 'admission' to our courses from our participants while holding **democratic group discussions** to go over the changes.
- We are in the beginning fazes of conceptualizing a new joint initiative between Kutumb and **Visions DIS** entitled **WE: Arth**. This project will use the waste materials from our President and Founder, Kapil Pandey's business, Visions DIS to create sustainable and creative products such as Filmi coasters and associated merchandise. The idea is to engage the creative potential of Kutumb's elder participants and provide **livelihood opportunities** for those interested parties while simultaneously **reducing environmental impact** of Visions DIS. This project is in the planning stages still but we are currently doing market research and rolling out our first prototypes. The profits from this venture will help to sustain the valuable work Kutumb has been doing for 10 years now.
- **Classes at the Extension Learning Centre began on 25 June**. We are currently in our first batch, with 30 students. Eventually we aim to expand and hire a female teacher as well, in addition to Kutumb peer leader Rahu.

This was the first of a series of workshops focusing on creating a Gender Sensitive Environment and continues our work on **gender sensitivity**. This workshop is part of **ILSA's Change the Conversation Event**.
